When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices, do not require to be lured back by catchpenny reductions.

TELEGRAMS
TO STANDARD.

London, July 13th—Mr. Gladstone has been returned for Midlothian. It is now considered as certain that the final result of the elections will be a small majority for the Conservatives and Liberal Unionists.

St. Petersburg, 13th.—The cereal crop will be lost in ten provinces, will be bad in eight, and average in the rest. Nevertheless, on the whole, it will be very much better than last year's. In those provinces where cholera has appeared there is a great scarcity of hands.

Paris, 13th—The papers of to-day make unfavourable comments on the acquittal of Madame Reymond for the murder of Madame Lassimonne.

(To the "Prensa".)

London, 12th.—The elections now stand so:

Conservatives	198
Unionists	28
	226
Radicals	105
McCarthyites	30
Parnellites	5
	200

The Conservatives are still ahead by 26 seats.

There was a fierce riot between the two Irish factions at Kilrush, and many people were wounded.

Strassburg, 12th.—A boat in which were several members of the musical Society of Isenheim capsized, and eleven persons were drowned.

New York, 12th.—The London Stock Exchange is dull. Foreign securities are less heavy. Silver bars 39 15/16ths

LOSS OF THE ROSALES.

With profound regret we have to report the loss of the above war-vessel, which in company with the Brown and the 25 de Mayo left our port on the 6th. inst. for Spain, to take part in Queen Christina's naval review at the port of Palos on the Columbus centenary. The Rosales was not properly a sea-going boat, and if we made no objection to her departure for Europe it was because we do not profess to know much in matters of marine, and we could hardly feel justified in interfering in the management of the Argentine military or naval forces.

Our misgivings about the Rosales were founded on what Capt. Patmore R. N. told us of his experiences in bringing out the Comandante Py, a vessel of similar build. His narrative appeared in our columns, and he mentions that for nine days he had to stay on deck, because if the hatches were opened, the sea which was sweeping the decks, would rush in put out the fires and swamp the ship. He lived on chocolate for those 9 days, and all the officers and men that were under hatches had to remain there, it being impossible to get on deck. The danger which he anticipated, and against which he had to combat for so many days, is precisely that which has befallen the Rosales: the water got in, the fires were put out, the ship would not answer her helm, and the crew had only time to take to the boats, when she foundered, 200 miles N. E. of Polonia light-house, off the Maldonado coast. As a very high sea was running it is a miracle that any of the boats reached land safely. Some are still missing, and we are very anxious about their fate. The loss of the vessel and armament, some £50,000 sterling, is a trifling matter compared with the lives of the officers and men.

Happily there is no reason for uneasiness about the Brown and 25 de Mayo, both first-class sea-going boats.

In speaking of this disaster some of the morning papers say that it is the first Argentine war-vessel lost at sea, and the second mishap of any kind, the first having been the explosion of the Fulminante in 1875 at the Tigre. This is hardly correct. We take the following from *Mulhall's English in South America:*—

"After the capture of Montevideo (June 1814) Admiral Brown fitted out the Hercules, Trinidad and a new American schooner, carrying 40 guns and 400 men, to destroy the Spanish fleet in the Pacific.

"They took a supply of 6 months' provisions and sailed on Sept. 15th 1815, Admiral Brown and his brother Michael, who commanded the Trinidad, safely doubling Cape Horn, but the third vessel, commanded by Capt. Oliver Russell, was never more heard of."

In later times we can call to mind a very sad occurrence, the blowing-up of the Argentine transport General Outram with two battalions of infantry, at the mole-head of this city, in Nov. 1861, after the battle of Pavon. Accidents of this kind are inevitable, and on the whole the Argentine navy has had very few. But we are decidedly of Capt. Patmore's opinion that vessels like the Rosales are only to be sent to sea on occasions of emergency.

The present disaster reminds us of the loss of H. M. S. Captain in the Bay of Biscay in Sept. 1870, except that on that occasion everyone on board perished, whereas the Rosales has lost only a part of her crew, and perhaps none, seeing that some boats are still missing and may be picked up by some passing vessel.

The details to hand are as follow:—

Telegrams announcing the disaster that has ended in the loss of one of the newest additions to the fleet created a profound sensation all through the city. It was only known late on Tuesday night, although it occurred on the 8th inst., and the first intimation was a message from the P. M. General, Dr. Carles, to President Pellegrini that news of importance had arrived, which he would impart in person. The President was about to set out for the Opera House, but he immediately countermanded his carriage and awaited Dr. Carles' arrival. The P. M. General soon made his appearance and handed the President the following telegram:—Montevideo July 12th, 10 p.m. To Dr. Carlos Carles, Post Master General: I wish you to be the first to know of the grave disaster of which I have just received advice from our office at Castillos, announcing the loss of the torpedo-boat Rosales, 200 miles off the Polonio coast. Commander Funes and part of the crew saved, but the rest who took to rafts and launches have not yet turned up. Further details later.

According to telegrams, however, received from Mr. E. B. Moreno, Argentine Minister in Montevideo, the Captain officers and engineers of the Rosales had arrived after 3 days' voyage in boats at the Polonio light-house, where they took refuge. Minister Moreno with most laudable activity despatched the tug-boat Emperor to the scene of disaster in aid of that part of the crew which had not yet reached shore, and the president of the Republic of Uruguay also gave orders for the dispatch of a gun-boat to same destination. Meantime President Pellegrini ordered off the Espora, the sister-ship of the Rosales, in all haste.

As to the cause of the disaster therecan be no longer any doubt that it was caused by the Gale of the 8th inst. which raised such a heavy sea that the waves washed the vessel all over, putting out the fires and rendering her unmanageable. Seeing that it was impossible to save her the officers and crew then took to the boats and made for land. It is well to remark that both the Rosales and Espora on their voyage out from England, as indeed also the Py under Capt. Patmore met with heavy weather which so tossed them about that they were in danger of being lost. It is also said that the President of the Republic, Dr. Pellegrini was most averse to the Rosales forming part of the squadron despatched to Palos.

The Rosales was built by Laird Bros. of Birkenhead on the lines of the Rattlesnake, which had given such splendid results in the English naval manœuvres. Her cost delivered in Buenos Ayres was £43,000; her speed under high pressure was 19·25 knots, and her dimensions 210 feet long by 23 beam with 18 depth of hold, 9 feet draught and 615 tons displacement, the engine marking 3250 horse-power. Her armament consisted of two 67 m.m. Nordenfelts, two 47 m.m. and one 53 m.m. all quick firing, a torpedo tube in the bow 45 centimetres diameter, and four tubes in the sides.

A feature in the lamentable business is the activity with which the idea of a popular subscription to replace the Rosales was initiated and taken up. All the Clubs and Centros of standing in the city immediately took the matter in hand, the foremost being the Clubs del Plata, Progreso, Español, Circulo de Armas, Jockey Club, Centro Naval, Bolsa and Club de Gimnasia y Esgrima. The Naval cadets subscribed two months' pay or say $600.

The Rosales was manned as follows:—Commander, Capitan de Fragata, Leopoldo Funes; 2nd Commander, Teniente de Fragata, Jorge Victorica; Officers—Teniente de Fragata, Pedro Mohorade; alferez de navio, Julian Irizar; alfereces de fragata, J. Goulu, Francisco Gonzalez, F. Donovan; comisario contador, Juan Solerno.

The following is the latest:—

To Dr. Carles

The captain's account is as follows:—

On the 7th inst. when the gale began I fell away behind the Brown and the 25 de Mayo, until I lost sight of them. On the 8th when the gale was at its highest at 8 p.m. the engineer forward told me that he heard something queer under the boiler and that the department was inundated, which speedily spread to the aft department. Our pumps were not able to cope with the water and the fires were soon extinguished. We drifted at the mercy of the waves for 23 hours, working the pumps and buckets until the 9th, when we abandoned the ship, leaving it foundering.

7.30. Commander, officers and engineers, twenty-five in all, embarked in a boat which ran on a rock on the coast, costing the lives of one officer, an engineer, two stokers and a seaman. We arrived at the Polonio Light-house worn-out with fatigue, cold and hunger, and nearly all sick. Here we are treated with the utmost attention. I beg to recommend to your consideration Mr. P. Granpillo, the keeper of the light-house.

L. G. Funes.

RAILWAY REVIVAL.

Nothing is more welcome than to see signs of reviving trade, such as the *Railway Times* alludes to in its issue for last week. The returns of 7 principal Argentine railways for the preceding week compare with the same week of 1891 as follows:—

	Receipts
June 26th 1891....	£41,987
" " 1892....	£57,521

The earnings per mile were £14·6 in 1892 against £12·3 in 1891, an improvement of 19 per cent. Most of the improvement was due to the fall in gold, the value of the paper-dollar having risen 15 per cent. Even after allowing for this we find an improvement of 4 per cent in the earnings as measured by paper dollars, which, small as it may seem, clearly indicates a turn of the tide. We learn on the same authority that 5 of the principal lines, viz. Central Argentine, B. Ayres Western, Ensenada, Pacific and Argentine Great Western, taken collectively shew an improvement of 27 per cent earnings in paper-money, or 42 per cent if the receipts be counted in pounds sterling. This is very cheering news.

LESSONS IN FINANCE.

THE PROVINCE OF BUENOS AYRES.

The revenue and expenditure of the province since 1880 were approximately as follows:—

	Sum $	Per annum $
Revenues.....	84,000,000	7,000,000
Expenditure...	255,000,000	21,200,000
Deficit.....	171,000,000	14,200,000

The debt which has accrued since 1880 is $53,500,000 gold or 171 millions currency, equal to £10,700,000 sterling. We have no record of how the money was spent, but probably as follows:—

	$ currency	£ sterling
La Plata docks..	48,000,000	= 3,000,000
Public buildings	90,000,000	= 5,600,000
Sundries.....	33,000,000	= 2,100,000
Total.....	171,000,000	= 10,700,000

The estimates for 1892, by Minister Moreno, shew as follows:—

Revenue	$ currency
Property-tax.....	1,910,000
Stamps.....	1,850,000
Licenses.....	950,000
Banks etc.....	4,295,000
Total.....	9,005,000

Expenditure	$ currency
Government.....	6,500,000
Treasury.....	1,100,000
Legislature.....	875,000
Banks etc.....	4,077,000
Total.....	12,552,000

The same Minister stated the finances for preceding years as follows:—

	1890. $ currency.	1891. $ currency.
Revenue	9,810,000	9,000,000
Expenditure..	20,860,000	20,500,000
Deficit ...	11,050,000	11,500,000

The three years 1889-90-91, he says, shewed an aggregate deficit of 33 millions currency, or £2,400,000 sterling, which was met by the sale of the State railways to an English Co.

The estimates of expenditure for 1892, as given above, do not include the service of the public debt, which would demand £800,000 or $13,100,000 currency. The debt, as shewn by the Minister, in December 1891, was as follows:—

	Debt. £ sig.	$ currency	Interest. $ currency
Foreign	8,200,000	= 131,200,000	10,100,000
Internal	2,500,000	40,300,000	3,000,000
Total	10,700,000	= 171,500,000	13,100,000

In the above table gold is reduced to currency at 320, that is $16 currency per £ sterling. Internal debt is made up of $20,000,000 in bonds, and $11,300,000 in Treasury bills.

If the budget of 1892 were to provide for the service of debt the expenditure would stand thus—

	$ currency
Administration	12,552,000
Service of debt.....	13,100,000
Total.....	25,652,000

The total receipts on which the Minister counts, as shewn above, are 9,005,000$, which would leave a deficit of 16,647,000$. But as the debt is suspended the probable deficit is reduced to 3,547,000$. So long as the Provincial Bank was in a position to continue "its career of public utility" there would be no difficulty in covering the said deficit by opening a credit for "extraordinary expenditure." But as that source of finances is now dried up it is impossible to guess how the Government is to face the situation. We observe that in Santa Fe the Government is paying the policemen in stamps. This would indicate that we are fast drifting on the rocks, and that either the National Government or the Federal Tribunal must seriously take in hand the whole question of the finances of the Provinces.

GENERAL RAILWAY MAP.

This is a superb work on 8 sheets, shewing all the railways of Argentina, Uruguay, Paraguay and the adjacent countries. Mounted on rollers it measures 10 feet by 4, forming an indispensable ornament for any office or study. It loses nothing from the fact that it is an official publication, having been initiated by Don Luis Araoz, chairman of the National Railway Committee, who received the fullest support and co-operation from the Minister of Interior, Dr. Zapata, and confided the execution of it to Dr. José Chavanne.

As a work of art it will certainly attract no less notice in Europe than in this country, for it may compare with the best produced in England, France or Germany. It is not strictly a railway map, but gives with extreme minuteness all the natural features, the various mountain ranges, forests and watercourses, being printed in 12 colors, which express the degree of elevation over sea-level. It is, moreover, on so large a scale that the various provinces with their towns and villages stand out very clearly.

The railways are shewn with a precision that is truly admirable; thus single lines are distinguished from double, narrow gauge from wide gauge. Every station is marked, as well as its elevation over sea-level, and the character of the surrounding country, level or mountains, swamps or forest-clad, may be seen at a glance.

We cannot too highly praise the great care and patience that have been exercised in delineating such a "magnum opus" of engineering, or the consummate skill displayed in the engraving and impression of same. It is work which reflects great credit on the Argentine Railway Board and on Dr. Chavanne. We venture to suggest to the chairman, Mr. Araoz, to send a copy to the British Museum, London, another to the Royal Geographical Society, London, and a third to the Royal Scottish Geographical Society, Edinburgh. The publishing price, mounted on rollers, is $70; some persons may prefer to have it bound as an atlas in 8 sheets.

BOMBARDMENT OF PORT ALEGRE

The President of Brazil has telegraphed to the Commander of Rio Grande the following melancholy news of the bombardment of Port Alegre. H.E. says:—"The rebel gunboat Marajó has again repeated its barbarous acts in Port Alegre, bombarding the deposits of the Custom House, shelling the Arsenal of War, the Cuartel General and the unfortunate steamer Mercedes. This time, however, the Marajó has met with some opposition, and the land forces have heroically defended the place, the formidable Lahitte cannons in the Arsenal returned the fire hot and strong. Pickets of our infantry lined the shore and Lieutenant Chacha, in command of the police, poured volleys into the Marajó, which compelled her to clear out, passing by Piedras Brancas. The Commander of Rio Grande is ordered to put himself in communication with the naval authorities in Rio in order to seize the gunboat, strip her of her officers and crew, and put proper, loyal men on board."

The President of Brazil says that the enemies of his Government, who have the hardihood to fire on a defenceless and pacific town, are unworthy of the name of Brazilians.

The news arrived yesterday in Montevideo that the Marajó had surrendered.

OUR LONDON LETTER.

POSTSCRIPT.

(From our own Correspondent.)

June 11th

"A third return" to the sea needs no apology this weather, or need one be ashamed to own that he is writing from London 70 miles off, not far from St. Leonard's, and in a country billiard-room, because one can smoke in such places and one's attention is not diverted by red parasols. All the London papers are in the reading room hard bye, and Messrs. Smith's stall is within easy reach. A practised eye sees at a glance that there is nothing in the day's news, and one might just as well be on Ben Nevis as in Whitehall Mansions. Even the *Financial News* is barren. What it has to say about Argentines is at least hopeful. It looks forward to the result of the elections which take place to-morrow in Buenos Ayres as likely to send down the premium on gold to 200 and confirm the steady rise of Argentine securities. Beyond that you are in the happy position of people who are not talked about and are, therefore, supposed to be sound. You get alluded to, however, in various and not always favourable ways. An "Eastern Banker," for example, cannot help reminding people that shares in the fallen New Oriental Banking Corporation are not like some Argentine securities which are worth 50 % less this year than last through the depreciation of the paper dollar, whilst Mr. Alt, the chairman of the Brazilian Great Southern Railway Company, seems to thank God that Brazil is not as other republics—he could name—are. You may be well satisfied. There is no excitement in Argentines, because we are on the wait, and if the result of your elections is as favourable to peace and good finance as the Republican nomination is in the United States, we are in a humour here to respond, as money is overflowing our coffers. The failure of the Oriental Bank scarcely created a ripple in London, and we know by telegram that it has made little impression in the East, where it had many ramifications. The bank was badly managed. At Melbourne one of its managers let it in for £80,000, and it suffered from the failures of the small I O U merchants or "chitties" in Singapore. In London it was too much of a club and "five o'clock" tea affair, and made the resort of old Indians. As the "Eastern Banker" to whom I have alluded explains, the fall in silver had nothing to do with the failure of the bank. It is the custom of Eastern banks to "secure their exchange" as we used to say in good old days when the paper-dollar was something like a paper-dollar and worth only twopence. In the East the bankers buy sterling in Bombay or Calcutta immediately after they purchase silver or council drafts in London at rates calculated on the price of silver on the same or on the preceding day. They also buy sterling "forward"—that is deliverable at their branches in one or two months—and sell their telegraphic transfers for the same dates or nearly so. In fact from your experience in B. Ayres you know all about it. A fall in silver like a fall in paper comes hard on railway receipts and on salaries and "pay" in currency, but bankers and merchants know how to take care of themselves. The shareholders in the Oriental Bank are not liable beyond the amount of their shares which are paid up. We shall know more about it after the meeting takes place, but as far as we can judge it looks as if the affair would wind up badly. The aggregate liabilities to the public are over 9½ millions.

You will see by the printed accounts of the Republican presidential nomination in the United States that Mr. Harrison's victory and Mr. Blaine's own shifty tactics have probably placed this gentleman on the retired list for ever. Moreover, the animosities and divisions in the Republican party materially increase the chances of the democratic candidate, who will, without doubt, be Mr. Cleveland. With Mr. Gladstone in power in England—I mean to say Britain, and face the Scottish Union, why not Great Britain and Ireland, Jersey Guernsey, Alderney, Sark and Man? and Mr. Cleveland President of the United States and—any gentleman that may be your choice in the Presidential chair in the Argentine Republic, the world may take a new lease of beatitude, and the silver demons and protectionists demons and jingo demons and paper demons will slink back into their lairs. The meeting of the Czar and Kaiser at Kiel is fondly looked upon as a sign of peace in Europe, but the contemporaneous visit of the Russian Prince to Mr. Carnot during the fetes at Nancy looks too much like hedging on the part of the Czar, and leaves us as we were, quite understanding that he is in favour of peace and will not side with France in an attack on Alsace or permit Germany to wantonly attack France. In London politics are at a stand-still. Flower shows, balls, operas, French plays will occupy the time between this and the elections.

THE CONFLICT IN SAN PAULO

The *O Paiz* of Rio Janeiro gives the following as the origin of the conflict between Brazilians and Italians in San Paulo, to which we referred yesterday, taking its information from the Italian journal *Roma* of San Paulo.—

Sr. Mario Anatro, a man of 60 years old, master of the Italian brigantine Pietro Ten, in the port of Santos, had on board a Spanish woman as cook and stewardess. On the 15th of June some Customs guards boarded the vessel and asked if it was true that he kept a woman of bad character on board, an imputation which the Captan indignantly rejected. The vessel, it should be mentioned, communicated with the shore by a plank. Half an hour after this visit, about a dozen armed guards boarded the vessel, assaulted and wounded the captain, bound him and an old sailor who was his only companion, and carried them prisoners to the Coast guard office. The next day they were set at liberty with a recommendation "not to insult the guards again." The Italian consul protested against the treatment, but was not attended to. Captain Anatro returned to his vessel, and in a few days died from the injuries he had received, although attended to by two doctors of the Compania Navigazione Italiana. He was buried as a victim of the yellow fever! The officers and mariners of the Italian steamers Mentana and Santa Fé followed him to the grave, where comments were made on the way he was done to death. On the following day a group of coast-guardsmen and policemen, armed with swords, revolvers and guns, boarded the Mentana treading down the Italian flag which the captain had placed across the gangway. A fight ensued with the crew, who finally repulsed their assailants, being assisted by men from the Santa Fé. A mariner of the Mentana and the carpenter of the Santa Fé were wounded. After considerable trouble the consul obtained from the Brazilian authorities a promise to prevent a repetition of these barbarous acts.

It appears that the Italians in Santos and San Paulo are at daggers drawn with the Brazilians on account of these and other circumstances. The revolted state of the provinces renders useless the admonitions of the central Government.

According to the *Italia* the Italians resident here are highly indignant with the treatment of their countrymen, and are also vexed that their Government has not taken more energetic measures for their protection, the events narrated above, though only just published, not being of recent date. It is probable that they will hold a meeting to express their indignation at the treatment, and their unity with their countrymen in Brazil. We hope they will. The Italian gunboats have not yet left the Plate for Brazil.—*M. V. Times.*

MARRIAGE AND MEDICAL SCIENCE.

Mr. Editor,

In the STANDARD of Saturday Dr. O'Conor says "I am the first to condemn those unions in which husband or wife has defects of so grave a character as to vitiate their children. My theory is that hereditary antecedents and health must be considered before wealth and beauty, when a marriage is proposed." No one can doubt for a moment the far-reaching significance of the laws of inheritance and the theory propounded by Dr. O'Conor; but these facts are not new, nor have we to look to "medical science" for the origin. Mr. Darwin in his "Descent of Man," Vol. II, chap. 21, says: 'Man scans with scrupulous care the character and pedigree of his horses, cattle and dogs before he matches them; but when he comes to his own marriage he rarely, or never, takes any such care. He is impelled by nearly the same motives as are the lower animals when left to their own free choice, though he is in so far superior to them that he highly values mental charms and virtues. On the other hand he is strongly attracted by mere wealth or rank. Yet he might by selection do something not only for the bodily constitution and frame of his offspring, but for their intellectual and moral qualities. Both sexes ought to refrain from marriage if in any marked degree inferior in body or mind; but such hopes are Utopian and will never be even partially realized until the laws of inheritance are thoroughly known. All do good service who aid towards this end. With regard to Dr. O'Conor's letter on "kissing" in a previous issue, it is extremely difficult to accept his statement that a misguided youth of noble family could transmit, by a kiss, the disease "indicated" to healthy members of his own family. Is it not probable that the noble family in question were predisposed to the disease, and that marked symptoms appeared at the same time. I do not believe kissing dangerous in the manner described by Dr. O'Conor. But the subject is not one to be lightly treated, and I would suggest that the Committee of the English Literary Society endeavour to secure Dr. O'Conor's services to lecture on either of the above subjects; both together would make a good combination, and an instructive and enjoyable evening would be the result.

Darwinian.

B. Ayres, July 11th 1892.

CUSTOMS REPORT

(From the "Review")

A very interesting chapter in the Comptrollers report is that devoted to an account of how he has endeavoured to check smuggling. Numerous cases are cited, but we will only mention one which refers to a well known house which has more than once attracted public attention:

Various firms in the same line of business having advised me,—says the Comptroller—that Messrs Medici and Co., contractors of the Drainage Works, had imported fraudently quantities of Portland cement, lead in bars, fittings for water service, etc., etc., and having been informed of a recent case of this kind, commited in La Plata, I asked and obtained authorisation from the Finance Minister to send to that city to make the necessary investigations. I sent Mr Ygarzabal, chief of the Resguardo, for this purpose, and he, with the acuteness and activity which he always displays, succeeded at once in proving that the barque Reina Margherita had brought for Messrs Medici and Co, 11,200 barrels of Portland cement; that on half of this shipment the duties had been paid, and that the other half had been brought in duty free under the plea of exemption enjoyed by the Drainage Works; but that the entire shipment of 11,200 banrels, as was proved by the marks, had been sold to the house of Spinetto Brothers, and conveyed in lighters to the deposits of this firm, situate in the Boca del Riachuelo.

The result of this affair was that, after a thousand troublesome administrative details, after distinct proof of the contraband had been gathered from various sources, amongst which was a declaration made by an employee of the firm itself; an after and adverse report had been made by the Receiver of Taxes against the Custom House, the Federal Judge of La Plata, who had jurisdiction in the matter gave sentence . . . absolving the firm of contractors! but they, having an intranquil conscience, presented themselves one fine day to the Minister, and offered "to pay a fine of $100,000 in discharge of all claims which might be made in this and other similar affairs,"—and the Government accepted it!

THE LIQUIDATION OF THE ENGLISH BANK.

To the Editor of the *M. V. T.*

Sir,

Your very able article of Saturday about the liquidation of the English Bank deserves the deep gratitude of all local creditors of that institution.

I have read in the papers the published statement of the said Bank as on 31st May last. I trust it is correct, and granting for argument's sake that it is, I beg to ask you if you can explain how it is that owing so little in this city as they say they do, viz: $1,382,072.96, and having assets to the value of $6,333,883.96, after making certain mysterious abatements, the new company do not pay off the small indebtedness to creditors here and thus become possessed of such a large amount of assets? Is not the inference to be drawn a very natural one, that the said assets may not be worth very much.

Gratefully yours,
A Large Creditor.

According to a tabulated statement published yesterday and signed by the Liquidating Committee, the definite cash liabilities of this branch are reduced to $1,382,972.96 and there is a further item of $903,053·94 corresponding to drafts upon Europe not yet located in any liquidation, part of which may fall upon the branch here. The assets on May 31, deducting shares deposited and drafts to be collected, are estimated at $6,333,883.69. Next week we intend to refer to this statement at fuller length, and by that time we may also have before us the representations made by the Liquidators to Government and embodied in the Message of which we spoke yesterday.

The idea is gaining ground that an informal meeting of creditors should be held without delay, to discuss the attitude to be assumed for the protection of their interests and, if necessary, to appoint representative and investigating committees. It only awaits for some leading creditor to take the initiative for this to be carried out. We think this would be a very proper course to pursue, and entirely necessary under the circumstances, and we hope to hear of its being put into action before the matter comes before the Chambers for discussion. It would also be well for a representative of the creditors to telegraph to the reorganising company in London and demand from them a definite statement as to their intentions with regard to this market, about which they have hitherto been so suspiciously silent.

According to rumours current yesterday, there would be considerable opposition in both the Chambers to the proposed extension of the moratorium, or at all events to any extension over three months, the idea being that the London company ought to assist this branch as it has the branch in Buenos Ayres, and that the liquidators here should make more effort to realise the assets, represented at so large an amount.

CHINA TEA.

Mr. Editor,

Referring to the paragraph in your Editor's Table this morning giving an extract from the *Court Journal* regarding a supposed custom amongst the Chinese of using tea for embalming a corpse and afterwards shipping the tea to the consuming markets under a mark only known to themselves, I beg to assure you the tea I am offering has never had a corpse in it, yet it has considerable "body," and is a favorite amongst those who have once tried it; in fact, it is considered quite a "corpse reviver."

Yours truly
Robert Marshall.

EDITOR'S TABLE.

The loss of the Rosales has caused a most painful impression in all quarters and amongst all nationalities in the city. There is a unanimous opinion that such a small vessel should not have been sent to sea in mid-winter. The hope at first entertained that no lives were lost has been disappointed, as will be seen in the full particulars given in another column.

A Cabinet Council was held yesterday, at which it was decided to authorize Dr. Dominguez, the Argentine Minister in London, to order another torpedo boat, (to cost £50,000) to be built, to replace the Rosales.

The honourable Deputies met yesterday. Dr. Magnasco moved that $100 a month be deducted from the salary of the Deputies for two months, towards the fund for a new vessel to replace the Rosales. It was referred to the Finance Committee. The House passed a vote of confidence in the Judicial Investigation Committee, and allowed it twenty days more to present its report.

The mails for Europe by the Sirio will close to-morrow at noon.

The prize fight and muscular entertainment at the La France Hall on Tuesday night was attended by all the fashionable Englishmen in town. It began with several 'tours de force' by a black gentleman, followed by a set-to with small gloves. The event of the night was a fight for $800 with 4-ounce gloves. It lasted 25 minutes, Ball of London pounding the black, Davis of Pensacola, in such a fashion that the latter got angry and took off his gloves. This was the beginning of a difficulty that ended in a free scrimmage in which chairs flew about like hail until the police came in and restored order. No killed or wounded. The night was 'fine.'

The Scotch Church Young Men's Society meets this evening at 8 o'clock. Subject of discussion—"Grievances of young men in Buenos Ayres." On 21st inst. there will be a lecture by Mr. A. Stuart Pennington, on "Microscopic Curiosities," with Magic Lantern illustrations.

There will be an interesting ceremony to-day at the Scotch Church, when Mr. H. B. Owen, the popular organist of the church and equally popular conductor of the Choral Union, will lead to the Hymeneal Altar Miss Bostock. As a mark of the esteem in which he is held, the Service will be Choral, and the music will be in the efficient hands of the Choral Union.

The famous horse Asteroide died yesterday, sincerely regretted by a wide circle of friends who had often won and lost money on him.

President Herrera's latest effort in the financial Message line is expected to see the light to-day. No President on earth has ever written so many financial Messages as Dr. Herrera; and each one makes matters a deal worse.

Several of our lady friends having asked for information about 'pastorized' butter, warranted to last for ever, we went to the fountain head for it, and this is what we learned: A few hours after the milk is delivered at the Vitel Creamery (Chascomus) it has become butter, without a finger having touched it. There is a tank holding 3500 litres of milk, which flows from it into the first pastorizing machine, and from this into a second which finishes the work. In the process the milk and cream are separated, and the latter has absolutely no smell or taste, but both are restored to it by another process. The great advantages of pastorized butter will become apparent in summer, as it will not melt. The butter is on sale at Scheiner's, Calle Cangallo, McLean's same street, and the Rotisseries and confiterias in Calle Florida. People living on the Southern Railway can buy it at 1707 Calle Lima, and at the confiteria in the station.

Gioconda to-night at the National Theatre, for the debut of Señorita Farini and Señor Sivori; and the distinguished tenor Cavaliere Grani has consented to sing, although the opera is not in his repertoire. Several new artists are about being engaged for this company, which has made a very favourable impression on the public.

There will be a "first night" treat at the Politeama to-morrow, when Mr. Daniel Garcia Mansilla's new drama, "La Contessa di Silberstein," will be produced.

New cook—"I'm told the missus wants things in th' high-toned, fashionable style. I'm afraid I won't suit, for it's only plain cookin' I've done." Old cook—"It's easy enough. Make everything taste like something else."

While enjoying our 5 o'clock tea yesterday, we received the following witty epistle;—

Dear STANDARD.

Reading over your column of "New advertisements" (which is always interesting to myself looking to see if something is going to 'turn up'), I came across the following:—"To let, a nice small house *in* the Recoleta, suitable for bachelor or married couple". How enticing! All those who have visited the Recoleta on a Sunday or feast day know well what these nice small houses (shelves) in the Recoleta are like. The term "suitable for a bachelor or married couple" is especially consoling and attractive, and I can only suppose that the landlord of the said nice little house *in* the Recoleta is a Benedict whose better half and himself have passed successfully thro' the throes of influenza and now see that the investment has been a bad one and do not wish to let their money lie idle. There is no mention of the term of years the lease is available for, otherwise I presume there might be complications: as I know for myself that if I was shelved in this nice small house in the Recoleta I should not be able to move out when the lease expired.

Yours truly,
Regulator.

Advices from Lima announce that the volcano Misti, after a sleep of several years, has resumed business and is belching forth smoke and flames in such a vigorous way that the inhabitants of Arequipa are in a terrible fright. Government is looking for a scientific man tired of life to send to the volcano, to see what is the matter. As yet he has not been found. The papers call on the "astronomers" of the country to say something to calm the terror of the people.

Brazil's question with Italy about the Santos outrage is said to be settled.

The use of the phrase "Jack Robinson" originated in the British house of parliament during the debates on what was known as the "Indian bill," and when John Robinson was first lord of the treasury. Sheridan was the man who first used the phrase. It came about in this manner: Sheridan was speaking concerning Fox's waning chances, when he said: "Mr. Speaker, this state of affairs is not to be wondered at. When a member of this august body is employed to corrupt everybody, what else could be expected?" Instantly there was a great cry of "Name him!" Name him!" "Who is it?" 'Sirs,' said Sheridan, 'I shall not name the person; it is a most unpleasant thing to do. But don't suppose that I abstain because there is any difficulty in naming him. I could do so, sirs, as quick as you could say 'Jack Robinson." They naturally inferred from his remarks that Jack or John Robinson was the person whom he alluded to.

The death of Canon Cordoba, parish-priest of Moron, is announced. The lamented divine was field chaplain of the army.

The news from Santa-Fe is that part of the port barranca has tumbled into the river, and the people who live near the spot are 'mudando' like redshanks, lest they should awake in the water some fine, moon-light night.

Another wreck! The British barque Tom Hamlin went to the bottom off Campana the other day. Tom had been chartered to load something or other, but apparently didn't like the job and preferred to retire from business and settle down.

The death of Mr. William Elliott in Rio, of yellow fever, is much regretted by his many friends here, several of whom strongly advised him when he left not to exchange this healthy country for one so dangerously the reverse.

Oh! Sandy. Sandy, what will the ladies say? A young Scotchman on an estancia (we won't say where) had been halting betwixt two loves, one possessed of beauty, the other of a cow. In despair of arriving at a decision, he applied to the mayordomo for advice, who delivered himself thus: "Marry the lass that has the coo, for there's not the deeference o' a coo's value in ony twa weemin in Christendom."

Mr. Muñoz, a wealthy house owner in Montevideo, was nicely 'done' the other day. He has a house to let, and was called on by a well-dressed man for the keys, as he thought of renting the house, Mr. M. gave him an order on the inevitable 'almacenero al lado,' who at once gave the keys. The thief went in, took down the best chandeliers in the house, and walked off with them.

One of the most remarkable features of Prince Bismarck's library ad Friedrichsruhe is a framed photograph of Anton v Verner's famous picture of the Berlin Congress. The frame is so arranged that the glass can be raised to permit the owner to make a cross with black ink above the head of each of the members as they die off. The Prince had occasion to make another cross when the old Italian Ambassador, Count de Lunay, who, for ever forty years had represented Italy at Berlin, succumbed to old age and influenza. Of all the celebrated statesmen whose portraits figure in the photograph, only three now remain without the ominous black cross above their heads. They are those of Prince Bismarck himself, M. Waddington, and the Marquis of Salisbury.

We are asked to announce that a meeting of the committee of the B. A. Sunday-School Teachers' Association will be held in St. John's Church school room this afternoon at 5 o'clock.

What's the Limpieza department about that it does not look after the stray dogs that now infest the city, which will soon be worse than Stamboul. The number of nice pantaloons destroyed by the brutes while attempting to lunch

PACIFIC STEAM NAVIGATION COMPANY.

Fortnightly Line of Steamers.

The Steamers of this Company are appointed to sail in the following order:—

For Europe from Montevideo

SORATA, Capt. Adey, will sail on 14th July for Rio Janeiro, Lisbon, Vigo, Bordeaux, Plymouth and Liverpool.
IBERIA, Captain Massey, will sail on July 28th for Rio de Janeiro, Bahia Pernambuco, Lisbon, Bordeaux, Plymouth and Liverpool.

For the Pacific from Montevideo

LUSITANIA Capt. Kite, sails on July 18th for Punta Arenas, Coronel, Talcahuano, and Valparaiso.
GALICIA Captain Cooper, sails on Aug. 3rd for Punta Arenas, Coronel, Talcahuano and Valparaiso.

Table wine is granted to all classes of Passengers.
Steamers for Europe will touch at Plymouth to land Passengers only.
Passengers from Buenos Ayres must secure their tickets before 3 p.m. previous to the day of sailing from Montevideo.
Passengers booked through to New York, U.S.A., in connection with the steamers of the Cunard Line sailing from Liverpool.
Passengers are also booked for Australia in connection with the Orient Company's Steamers.
Third class passengers booked through to Winnipeg Canada, at much reduced rates. Liberal inducements are offered to settlers.
Steamers for the West Coast of South America are in nection with others of the same Company which trade up the Pacific Coast as far as Panama, and take Mails, Passengers, Parcels, Specie and cargo for Punta Arenas, Valparaiso and West Coast ports.
The steamers are illuminated with electric light, and are fitted with all recent improvements for the accommodation of Passengers.
In the event of detention at Montevideo, through bad weather etc., the Company will pay the ordinary Hotel expenses of passengers of all classes during such detention.

Hayward's Paste Dip

The best test of a Sheep Dip

PRACTICAL RESULTS OF USING A RELIABLE DIP WHICH CURES THE SCAB AND IMPROVES THE WOOL.

The following testimonial is received from Messrs Ronald & Rogers, the celebrated Brokers for River Plate wools at Liverpool who sold a number of lots of wool from some of the largest Estancieros in the River Plate.

COPY TESTIMONIAL

Telegraphic Address—Ronald, Liverpool, Exchange Chambers, Bixteth Street, Liverpool, 19th Feb. 1892.

Dear Sirs—

Amongst the River Plate Wools which we have sold here this season, our attention has been called to several clips which had been treated with Hayward's "Paste" Sheep Dip, and we have pleasure in testifying to the *freedom from scab, and handsome lustrous appearance of these wools, which we consider materially assisted in their obtaining such very good prices.*

ON 'CHANGE.

Wednesday, July 13th 1892.

The gold market resumed its downward march this morning and a good deal of the precious metal was brought to bear upon the speculation. Sales followed sales, acting like sledge-hammers on any resisting point of the ring; in this fashion the premium was hammered down to 225½% when a slight reaction set in, but the fall had its moral effect upon the market and the speculation ruled dull and heavy. Over seventeen thousand ounces changed hands at the first ring; the price opened at $53.60, fell rapidly to $53, rose slightly to $53.20, and closed at $53.10, say 225¾% premium. Sovereigns were dull; about one thousand were sold at $16.60 to $16.42, closing at $16.48, say 227½% premium. The last ripples of last Monday's gold panic appear to be dying out, and confidence is again reviving; still the same causes that prompted the sudden rise in the premium are in full force; the market is growing accustomed to them and trusts and hopes for the best.
Patriotic Bonds were active and steady; fair amounts were sold for the end of the month at 71.20 to 71.40, closing at 71.30. Small amounts changed hands for cash at 71 to 71.20. Internal Bonds closed at 63.30. Catalinas shares were dull and weak at 9.70 to 9.60. Shares of the New Italian Bank advanced to 52½. La Plata Cedulas were steady at 29.50 to 29.70. A few National Cedulas E changed hands at 85.
Exchange continued dull and nominal. Discounts were easy.
The following is a summary of the business effected in stocks and shares at the first ring to-day:—

The great Kemmerich saladero will make a fine display of exhibits at the Chicago Exhibition, and it is to be hoped that all the saladeristas in the country will do likewise. It may interest our readers to know what the Kemmerich factory turns out every year; the figures show the importance of the enterprise—
Extract of meat—from 200 to 300 tons.
Peptona—50 to 100 tons.
Boiled beef—300,000 tins, say 900 tons.
Ox tongues—110,000 tins.
Salted, jerked, beef—3,000,000 tins.
Meat flour—300,000 bags of 50 kilos each.
Blood manure—100 tons.
Bone-ash—2,000 tons.
Bones—1,000 tons.
Tallow—2,000 tons.
etc., etc., etc.
The Kemmerich Company own the Santa Elena factory in Entre Rios, San Javier estancia in Santa Fé, and other properties, with an aggregate area of 25 leagues of land with 60,000 head of cattle; furthermore, the company have rented 55 leagues, own 5 steam-tugs, 12 lighters and eighty different buildings. The following is the annual slaughter of the factory for several years past:—

	Head.
1881.....	3,000
1882.....	14,000
1883.....	26,000
1884.....	28,000
1885.....	32,000
1886.....	34,000
1887.....	38,000
1888.....	42,000
1889.....	54,000
1890.....	53,000
1891.....	86,000
1892.....	110,000

The factory has appliances to slaughter up to 200,000 head per annum. The purchases of live stock represent $1,000,000 gold yearly, and the yearly value of the Company's exports is estimated at $1,300,000 gold. The capital of the company is 9,000,000 fcs.
The Auditing Committee of the works under contract with Messrs. Lucas, Gonzales and Co. for the building of the Central Northern Railway and extensions has sent in a lengthy report to the Minister of the Interior. The Committee draw up a balance of $227,999.16, against Messrs. Lucas, Gonzalez and Co.
Messrs. J. B. Randle and Sons have made a proposal to the National Government to take over for their account the working of the Central Northern Railway and Extensions for ten years. Messrs. Randle state that the working of the line for the last eighteen months has left a loss of $537,000 %/s viz:—
$325,000 arrears due to employees, etc.
$100,000 due to the Oficina de Ajustes
$72,000 handed to ex-manager Figueroa.
$50,000 do do do Catoneo.
By handing over the working of the line, Messrs. Randle maintain that the Government will save half a million per annum, not to mention the loss threatened by the present neglect of the rolling-stock on the line.
Mr. Julius Shelky has applied to the Government for right to purchase the lands at present occupied by a number of colonists, whom he represents, in the territory of Santa Cruz.
Operations in maize continue active. About one hundred thousand bags were sold to-day at $5.65 in the Rio Santiago, $5.60 in the Mercado Central de Frutos, and $5.45 per 100 kilos in San Nicolas.
Exporters and consignees will soon hold a meeting to advocate the concentration of all the wool business in the Mercado Central de Frutos. They argue that the Plaza Constitucion is inadequate for the wool market and inconvenient, and they say that the railway company is more interested than the exporter or consignee in the removal of that market to the Mercado Central.
The local board of the Buenos Ayres Pacific Railway have sent to the Government for approval the plans of the level crossings of the line with the Rural Tramway. These plans include buildings for the guards at the passes in question.
Wool advices from the North of France were received to-day; no improvement is reported in the situation, and there are no prospects of any rise in price in the near future.

Dr. Juan Antonio Fernandez was enveloped in friends when he entered the Bolsa to-day and warmly congratulated on his recovery from a severe attack of influenza.

Mr. J. B. Gahan, who has just arrived from Paraguay, was welcomed; he reports everything very quiet up there and Paraguayan paper money at a desperate discount. The President of Paraguay has just recovered from influenza. Dr. Stewart who attended him is now laid up, having caught it from his patient. Mr. Gahan speaks highly of the Cosmos Club, the best in all Paraguay, and also of the great attentions he received from Dr. Stewart and his family. He went into the Interior as far as Villa Rica, and speaks in glowing terms of the evidences of agricultural industry he saw on all sides.

Dn. Lysandro Bellinghurst, the Demosthenes of the Bolsa, made a brilliant speech on Change on the loss of the Rosales, calling on the brokers to vote out of their mutual fund created by the late Mr. Legaretta the sum of Ten thousand pounds sterling to give to the government to help towards the fund for replacing the lost vessel. Spite of Dn. Lysandro's powerful appeal the brokers did not take his views on the subject; and many suggested that if they gave anything it should be to the widows and orphans of the supposed lost crew.

Mr. Anderson, Managing-Director of the London and River Plate Bank, leaves for London on the 3rd proximo. As a representative Englishman we have had few to take precedence of Mr. Anderson, who has so ably steered his magnificent bank through the hardest crisis ever known in this or any other market. A farewell banquet is to be given him, and the promoters find the step to meet with such great acceptation that the difficulty will be to get a place large enough to seat the banqueters. Many of Mr. Anderson's friends are on the broad of their backs with influenza at present. They will join in spirit in the revelry, and many of the vacant chairs will speak but too plainly of the prevailing epidemic. We remind the chairman of this, so that when he 'welcomes the hour' on that evening, when "to the highest top sparkles each heart and each cup," some kind friend, viewing the vacant chairs, will murmur: "I wish they were here." No man in Buenos Ayres of the British community merits this farewell honor better than our friend Mr. Anderson.

Mr. Ernest Buckland, who arrived up in the Mercurio yesterday, was welcomed. He reports the camps in good condition, sheep and cattle fat Sheep are in good demand by the Bascos and cannot be bought under 3$\frac{3}{4}$ "al corte." A sheepfarmer with a flock of 400 fine Negrette rams has arrived on the Colorado, and he is selling his rams to the sheepfarmers on his route at very cheap prices.

The freshest news from La Plata is that the new project is so far arranged as to give the bank 4 years Moratorium during which time it of course ceases, paying all coupons etc. The holders of Cedulas will, therefore, have to "stand" on their Cedulas until the Moratorium expires, and this, they say, will facilitate the liquidation of the bank. The conversion scheme, it seems, will not pass, but debtors to the bank can liquidate debts by paying to the bank any of its obligations.

The impression in the market is that Mr. Lussich of Montevideo will pick up the Rosales, tow her into Montevideo, and get good salvage.

There is such great opposition in Montevideo to the Moratorium of the English Bank down there being extended, that already it is considered as lost.

Money continues very easy and floating capitals are finding easy investment in the Empresitos of 1891 and 1892, the only investing Government stock at present in the market.

The R.M.S. Tamar arrived to-day at Montevideo and will be here to-morrow morning. The captain of the Tamar may throw some light on the loss of the Rosales.

The gold market ruled weak at the second ring; eleven thousand ounces were sold for to-morrow; the price opened at $53, fell to 52.80, rose to 53.20 and closed at 53, say 225.65 o/o premium. Sovereigns closed at 16.50, say 227.37 $\frac{1}{2}$ premium. Patriotic Bonds were steady. La Plata Cedulas improved and closed firm.

The following is a summary of the business effected in stocks and shares to-day at the second ring :—

Ounces—
July 14 .... 10,877 at 53-52.90-80-90 53-53.10-20-10 53 00.

The Minister of Finance has fixed the rate of gold at 320 for payment of Customs dues.

We take the following from Messrs Williams and Co.'s Buenos Ayres Shipping Report for the month of June :—

Steamers—Rates have been very irregular in the past month, and after paying 25s for prompt handy tonnage for maize from Rosario, the demand slackened down to 23s 6d, at which the month closes with a weak tendency. Rates are, in fact, almost nominal to-day, and it is very difficult to effect charters. Merchants are well supplied with tonnage secured ahead, which is now being rapidly loaded. The exceptionally dry weather and good condition of our maize crop have enabled heavy shipments to be made, and it is expected that the export of maize will be over by the end of September. A balance of wheat may still be available for shipment, but we see no prospect of much improvement in freights this season, nor do we think that rates can fall below their present level. The wool season is practically over, and the few remaining bales will be taken by the regular liners.

Sailers—The employment of large vessels of 2,000 to 3,000 tons D.W. at extremely low rates for maize from La Plata has no doubt prejudiced the ordinary business considerably. Such vessels have been freely offered at 13s to 13s 6d per ton. Vessels of under 1,000 tons D.W. have obtained 16s from Boca and La Plata and 22s 6d. from Rosario. The acceptance of such poor rates by these large vessels is entirely owing to the dearth of employment for them on the West Coast of South America and other parts of the world. Had it not been for this universal dullness, we should no doubt have had a better record of freights for both steamers and our moderate-sized sailers. Hay freights from Rosario to Brazil remain at about $3 for Santos and $2.50 for Rio Janeiro per 40 cubic feet. For the United States there is very little doing.

Principal exports from Montevideo during the month of June—
1,365 bales wool
345 bales s. skins
71 bales hair

Rio Segundo Brewery.
Stout and Pale Ale

These beers were reported on by the famous Analyst Dr. Arthur Hill Hassall of London, the greatest authority on the subject in the world, and pronounced to be well brewed beers and free from metallic or other impurities. They are brewed from genuine Malt and Hops, without any admixture of chemicals, and pasteurized to preserve them in good condition for an indefinite period.
On sale at all the principal Restaurants and Confiterias in town.
Delivered at consumers' residences in quantities of 1 dozen and upwards.
Orders promptly attended to by the Sole Consignees
ALLAN RAMSAY & Co.

X CHARLES OLMI X
A REGAL RESIDENCE
MAGNIFICENT PALACE
15 squares from Plaza Victoria; built with first class materials. 10 rooms, bath rooms, halls, w. c., servants' room.
A most comfortable mansion, healthy, dry and well ventilated.
Trees at the door and corners; gas, pipe water and cloacas.
This Palace has cost a fortune
Also the furniture, which is perhaps one of the best lots of furniture in Buenos Ayres, it was all made to order to match the expensive wall paper and the various styles of rooms of the palatial residence.
The furniture of the drawing-room, dining-room, bedroom, office and hall, are of the very best make. Chandeliers, carpets, bronzes and marbles, all valuable.
This splendid property and all the furniture will be sold privately all in a lot at much under cost price and on most liberal terms, half of the amount agreed cash, and the balance on time, from 1 to 8 years.
To inspect the furniture and palace and further information please apply at my mart

HORSFORDS PHOSPHATIC BAKING POWDER
BARON LIEBIG, the world-renowned chemist said, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea of yours has provided, I consider this invention as one of the most useful gifts which science has made to mankind." It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by that amount.
What a wonderful result is this !"

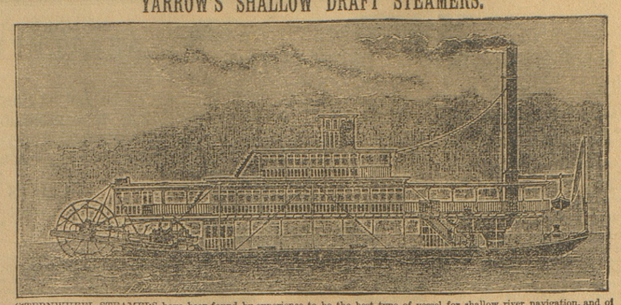
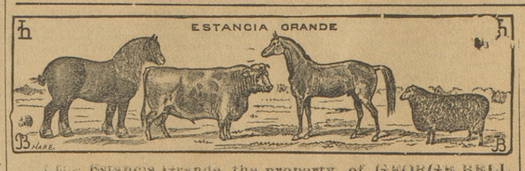
YARROW'S SHALLOW DRAFT STEAMERS.


STERNWHEEL STEAMERS have been found by experience to be the best type of vessel for shallow river navigation, and of these Messrs. Yarrow have constructed a large number of successful examples for all parts of the world.
Vessels on this system are constructed, when required, to draw as little as 6 inches.
Messrs. Yarrow lately built the sternwheelers "Mosquito" and "Herald" for the British Government, for service on the Zambesi.
They were constructed in floatable sections (capable of shipment), which were simply bolted together, avoiding thereby the costly and difficult process of rivetting up and launching.
For full particulars apply to—
YARROW & CO., Shipbuilders,
POPLAR, LONDON.



In the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.
La Estancia Grande no tiene participacion en la firma de Jorge Bell e hijo y no ha tenido desde 1879.
As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.
Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.
Animals of the same breeds are obtainable at the Estancia La Favorita. Apply to the Mayodomo, Estacion Ramos Otero, Rama. Ayachchon. Balcarce, F.C.S.

EXTRACT OF TOBACCO.
According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.
Directions for use
One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

ESTANCIA
Rafango Stud
For sale a number of select Stallions 3 and 4 years old, of Shire, Yorkshire, Coaching, Hackney and Irish Hunter blood.
The above lot of horses can be recommended with entire confidence. For colour bone and action they cannot be surpassed to cross with the average mares of the country; to produce a saleable and generally useful horse for this country or for exportation.
The Rafango Stud of Hackney and other blood mares is probably the largest and most select in the Republic.
The Stud can always be seen by appointment. Apply

PLANTAS—Remates todos los Lunes, Miercoles y Viernes en nuestra sucursal Bolivar 161 a las 12 del dia.
Por los mismos
COLOSAL REMATE
DE
TIERRAS
Adaptables para Agricultura.
En la region de los trigos,
Provincia de Santa Fe
Sobre el Ferro-Carril del Rosario a Tucuman.
Linderas a las Estaciones Arruño, Herzilia, Ceres, Selva y Malbran de dicho ferro-carril.
Tierras al alcance del mas pobre labrador.
Divididas en lotes desde 800 hectareas.
Sin Base Ninguna!
y condiciones ventajosas para el pago.
Area a venderse, 243,762 hectareas, o sean 100 leguas kilometricas mas o menos.
Se rematarán en la Capital Federal
En nuestra casa Alsina 480 y 482
El Miercoles 10 de Agosto
a las 2 de la tarde
Remataremos por cuenta y orden de una Sociedad y por liquidacion total de la misma, 243,762 hectareas, 65 areas y 29 centiareas ubicadas en la Provincia de Santa Fe, donde como todo el mundo sabe, existen las mas ricas y ricas colonias de agricultores de la Republica y cuyos habitantes no conocen la crisis que ha abrumado al resto de ellas, debido a las esplendidas y abundantes cosechas que les han dado estas sin iguales tierras.
La ubicacion de estas queda al Oeste del gran ferro carril que arranca de la capital de la republica y cruza toda la rica y poblada zona de colonias terminando en la ciudad de Tucuman.
Comidenan las tierras que se ofrecen en venta, en la Estacion Arrufo del ferro-carril mencionado y van hasta la Estacion Ceres de la cual distan 2 a 2 1/2 leguas estando alfrente de ellas ubicadas sobre la Estacion Maibran extendiendose al Sud Oeste de la misma.
Todas estas tierras estan medidas, y midiendose el resto por el Agrimensor Publico, Señor Eduardo Elquera, y seran entregadas amejonadas a todos y cada uno de los compradores una vez escrituradas.
Copiamos de una carta de dicho Agrimensor, lo pertinente a la fraccion que acaba de medir, que dice:—
"Respecto de la clase de tierra, se puede considerar de tener igual calidad de tierra vejetal de 50 centimetros termino medio de tierra negra, terrenos muy albos, el agua potable obteniendose de 6 a 12 metros. No hay montes espesos, (exceptuando las tierras que estan al Norte sobre la Estacion Maibran donde los montes son muy abundantes y en partes impenetrables) sino isletas de arboles v. g. ñandubay, algarrobo, palo amarillo, algarrobo negro, etc. etc.
"El lote 85 es algo bajo terreno inferior.
"Los demas lotes son adecuados para la agricultura y se encuentran rodeados de colonias es mas pobladas y otras en formacion y cerca a las Estaciones Arrufo, Herzilia, Ceres, del gran ferro-carril de B. Aires a Tucuman.
"Los pobladores que se advierten en el plano son pobladores que tienen animales de cria (vacuno, yeguerizo y ovino) en todas ellas hay jagueles para dar agua a las haciendas.
"La temperatura de esta region es la misma que reina en de donde dista unas 20 leguas."
Creemos que con estos datos nada tenemos que alegar sobre la bondad de estos terrenos que solo necesitan los brazos de hombres para hacerlos producir y con sus frutos sacar en un par de años doble de lo que se ha pagado por ellas.
La Provincia de Santa Fe que hace apenas 15 años, puede decirse, hera casi desierta, hoy es un damero cruzado en todas direcciones por lineas ferreas pobladas por innumerables colonias que robosan de poblacion rica y activa; llenas de molinos a vapor, elevadores de granos, fabricas e industrias sin fin.
Antes del fin de este siglo, la Provincia de Santa Fe enviara al mundo de sus granos de todas clases como lo hacen actualmente los Estados Unidos del Norte.
Creemos inutil insistir en mayores detalles sobre lo que son y seran estas tierras; ahi estan sus hechos que dicen mas de lo que podriamos decir nosotros.
Llamaremos si la atencion de los compradores sobre las condiciones de la venta a saber:—
Sin base ni limitacion alguna por lo que den.
El pago se hara una cuarta parte al contado y el resto a 6, 9 y 12 meses de plazo con pagare hipotecario.
5 o/o al firmar el boleto a cuenta del precio y en caso de no escriturar dentro de los 30 dias de la venta perderá el comprador dicho 5 o/o y quedara resuelto el contrato a opcion de los vendedores quienes podran exijir la escrituracion si asi les conviene.
Planos y pormenores se obtendran en nuestra casa Alsina 480 y 482.

R. MIRO Y CIA.
De 9 leguas de campo en la provincia de Salta.
Campo completamente llano con montes, compuesto de duraznillos, talas, palos santos, algarrobos, chañar y mistol. Tiene abundantes pastos y de varias clases. Muchas partes sirven para el cultivo. Este situado al Norte del Rio Bermejo con la Colonia Rivadavia
Base de venta 1 peso la hectarea. El dia 15 de Julio, a las 4 p.m., en nuestra casa San Martin 26, venderemos en remate el campo arriba indicado, medido y amojonado por los ingenieros S. S. Ognoll y Rawson, situado en el partido judicial de Santo Domingo, siendo sus linderos D. Guillermo Acuña, Felipe A. Amadeo, Dr. Antonio Polen, Dr. Manuel Peña, M. Argañaras y otros.
El comprador entregara el 10 o/o al firmar el boleto.
